EXPERIENCE

WordPress Developer Intern

May 2023 – Aug 2023

DataXpie | UK

- Developed and managed numerous WordPress projects, adhering to best practices in front-end and back-end development.
- Improved functionality and user experience (UX) by resolving plugin bugs and optimizing website performance.
- Utilized HTML, CSS, JavaScript, PHP, MySQL, and WordPress for developing custom themes and plugins.

EDUCATION

Bachelor of Science in Computer Science and Engineering

Feb 2024

Green University of Bangladesh (Narayanganj)

CGPA: 3.20

Higher Secondary Certificate

July 2019

Kabi Nazrul Government College (Dhaka)

GPA: 3.75

Secondary School Certificate

Feb 2017

Hazi Moazzem Ali Adarsha High School (Dhaka)

GPA: 5.00

PROJECTS

Capstone Project:

Multivendor E-commerce Website

[View in GitHub](#)

- Developed a full-stack multivendor e-commerce platform using the MERN Stack (MongoDB, Express.js, React, Node.js).
- Integrated real-time chat functionality using Socket.io and implemented Stripe for secure payment processing.
- Developed a comprehensive dashboard for sellers to manage products and interact with customers and admins.
- Created an Admin Dashboard for managing seller accounts, including the ability to activate or deactivate accounts, ensuring platform quality and compliance.
- Enabled customers to interact with products by adding them to the Cart and Wishlist, providing a seamless shopping experience.
- Implemented a review system for customers to leave feedback on purchased products, promoting transparency and trust.

Projects:

Instagram Clone

[View in GitHub/Live View](#)

- Developed a full-stack Instagram clone from scratch using React and Firebase.
- Utilized Vite for bundling the React application, Chakra UI for responsive design, and Zustand for efficient and scalable state management.
- Integrated Google and Facebook user authentication, profile customization, post creation, and real-time interactions.

Responsive Fashion Shop E-commerce Website

[View in GitHub](#)

- Designed the frontend of an e-commerce site using HTML, CSS, and JavaScript.
- Ensured responsiveness and cross-browser compatibility.

Travel Guide & Tourism Management System

[View in GitHub](#)

- Developed a mobile application using Java and Firebase to assist tourists with travel planning.
- Integrated map APIs, user reviews, and real-time data.

Religious Partner App

[View in GitHub](#)

- Developed a mobile application for finding religious partners using Java.
- Focused on security and privacy features.

Online Examination System

[View in GitHub](#)

- Developed an online platform for conducting exams using PHP and Hack.
- Included functionalities for question management, student registration, and result processing.

CERTIFICATIONS

ReactJS for Beginners– From Simplilearn

[View credentials](#)

ReactJS– From Great Learning Academy

[View credentials](#)

Web Development– From LEDP

[View credentials](#)

Intermediate Ethical Hacking with Linux– From Green University of Bangladesh

[View credentials](#)
